

UCCPlus Lender's Policy

The best practice for secured transactions

Gain the advantages of UCCPlus insurance:

ELIMINATE RISK of documentation defects, filing office errors, omissions and inaccuracies.

REDUCE COSTS of loans while increasing lender and investor transaction protection.

ENHANCE VALUE of loans, loan portfolios and securitizations sold into the secondary market.

The UCCPlus Lender's Policy is a title insurance solution that ensures all personal property pledged as collateral for your loan holds a first-priority lien.

The UCCPlus Lender's Policy eliminates your risks relating to the validity, enforceability, attachment, perfection and priority of your security interest on your personal property collateral.

The policy insures against fraud, forgery, documentation defects, filing errors and financing statement inaccuracies for all collateral as defined in Articles 8 and 9 of the Uniform Commercial Code.

The UCCPlus Lender's Policy includes a comprehensive review of your loan documents, searches and filings. The policy covers the "gap" period between the last search date and the date of perfection. The policy also includes the cost of defense in the event of a challenge to the security interest. Only a UCCPlus title insurance policy:

- specifically and clearly defines and describes the collateral being covered by the policy; and
- waives the right of subrogation with respect to the insured's counsel within the policy.

Just as lenders rely on real estate title insurance, you can rely on personal property title insurance with UCCPlus.

10 reasons why a UCCPlus policy is the best practice for lenders

Lenders have typically relied on heavily-qualified legal opinions of outside counsel regarding the attachment, perfection and priority of a security interest. A UCCPlus policy provides significant advantages over a legal opinion, offering greater protection to the lender and limited liability to law firms representing the lender.
